

Amendments to the specification:

On page 1, line 5, please amend the heading as follows:

Prior Art Background of the Invention

On page 1, please amend the paragraph contained within lines 7-8 as follows:

~~The invention is based on the generic types defined by the preamble to independent claims 1 and 12 relates to a method and data terminal for constructing a data connection between an integrated household control system and a data terminal located outside the base of the integrated household control system.~~

On page 3, line 8, please amend the heading as follows:

Advantages Summary of the Invention

On page 3, please delete the paragraph contained in lines 8-10.

On page 4, line 20, please amend the heading as follows:

Brief Description of the Drawings

On page 4, line 29, please amend the heading as follows:

Detailed Description of the Exemplary Preferred Embodiments

On page 14, please amend the abstract of the disclosure as follows:

Abstract of the Disclosure

In a A method and a data terminal for constructing a data connection between an integrated household control system (1) and a data terminal (11) located outside the base of the integrated household control system. ~~The~~ ~~the~~ data terminal (11) is mobile and is controlled by a position determining device (14) in such a way that if the distance from the household control base drops to a predetermined limit value, the construction of the data connection with the integrated household control system (1) is automatically initiated via a mobile interface (18) of the data terminal. Preferably, a computer in a motor vehicle (10) serves as the mobile data terminal (11).
